BUSINESS CONTINUITY

Business Continuity Summary

Cleanora Facility Services Ltd. · Reviewed 19 October 2026

Purpose

Each contract has a continuity plan covering staff shortages, supply disruption, pandemic response and loss of systems, aligned with the client's own plan.

This summary describes the arrangements that protect contracted services. A contract-specific continuity plan is agreed with each client during mobilisation and aligned with the client's own plan.

Objectives

- Protect the safety of employees, clients and the public
- Maintain critical services in clinical, security-sensitive and high-occupancy areas
- Restore full contracted service levels as quickly as possible
- Keep clients informed throughout any disruption

Governance

Executive owner	Group Operations Director
Incident management	Regional operations director leads; contract manager is the client contact
Assurance	Group Quality & HSE function reviews plans and test results
Client communication	Initial notification within 1 hour of a disruption affecting service

Contingency resources

- Relief staff pool per region
- Minimum stock holdings of critical consumables
- Offline helpdesk fallback
- Annual desktop exercise with clients

Scenarios and recovery objectives

SCENARIO	IMPACT	RESPONSE	RECOVERY OBJECTIVE
Loss of workforce (illness, strike, transport disruption)	Reduced staffing on site	Regional relief pool, cross-contract redeployment, priority area plan	**Critical areas covered within 4 hours**
Pandemic or infectious disease outbreak	Increased cleaning demand and absence	Outbreak protocol, enhanced disinfection teams, supply pre-orders	**Enhanced regime within 24 hours**
Supply chain disruption	Shortage of chemicals, consumables or spares	Minimum stock holdings, approved alternative suppliers	**No service loss for 14 days**
Loss of helpdesk or CAFM system	Requests cannot be logged or tracked	Telephone fallback, offline log, secondary site	**Service desk restored within 1 hour**
Loss of a regional office	Management and training base unavailable	Remote working, use of nearest office or client site	**Management functions within 24 hours**
Site emergency (fire, flood, security)	Client site partly or fully unavailable	Follow client emergency plan; deploy response teams	**Response team on site within 2 hours**

Testing and review

- Tested annually; reviewed after every activation
- Annual desktop exercise with clients on strategic contracts
- Service desk failover tested twice a year
- Lessons learned recorded and plans updated within 30 days of any activation
